**THANK YOU FOR YOUR BUSINESS!**

The groundwater flow model is constructed and marketed by the Iowa State University student chapter of the Soil and Water Conservation Society and is a teaching tool used by schools, businesses, government agencies and other interested in groundwater education. If you have any questions concerning the model or this form, email us at [swcc@iastate.edu](mailto:swcc@iastate.edu) or call Rick Cruse at 515-294-7850.

\*All packages are shipped insured. It is the receiver's responsibility to inspect the condition of the packages upon arrival. If there is damage, make sure that the delivery driver makes note of damage, then notify us as soon as possible.
